

SafePlans
Preparedness Starts Here

Professional Services & Consulting

SafePlans consulting teams include experts in the fields of law enforcement, emergency management, school safety, corporate security management, intelligence, and force protection/anti-terrorism, with areas of specialization in:

- School safety and security programs
- Protection of people and property in escalated risk environments
- Development of facility-specific security and emergency preparedness plans
- Protection of high-risk facilities with sensitive process operations
- Workplace violence prevention and intervention
- Site security, risk and vulnerability assessments
- Seminars, drills and table-top, functional and full-scale exercises

Consulting Solutions

Our emergency planning staff can meet with you and your team to provide customized solutions including:

- Security surveys
- Hazard assessments
- Plan development

Assessments

As no two facilities are alike, site assessments are the tested and proven method for evaluating security and emergency readiness. SafePlans conducts and organizes these assessments to ensure specific objectives are met and a consistent standard of assessment is employed. The information obtained from these assessments will collect critical site data and serve as the backbone for the development emergency plans and training. Site Security Assessments are offered to identify security vulnerabilities and how policies and equipment; such as video surveillance and access control can reduce risks.

Site Mapping

The SafePlans team can digitally map your entire campus to ensure first responders have access to life saving information when they need it and where they need it. Our site mapping system includes area maps, aerial photographs, floor plans, exterior and interior photographs and much more.

"Our experience with SafePlans was a very viable one. The process provided us an objective view of our current safety systems and very specific ideas for how we could improve those systems."

Dr. Mark Miles
Park Hill School District
